Customer Reviews

I'm a terrible cook but I love Thai food so I bought this as a fun, inexpensive gift for my Valentine. We haven't actually cooked any of the recipes yet, but they seem simple to execute (especially if they have a "Quickie" recipe attached). The descriptions of the dishes had me laughing my ass off though so if aphrodisiacs actually work, I think we might be taking things to the next level on Friday.

I normally meal prep, but when I don't I use these recipes! The taste to time ratio is pretty good for most of the recipes and I'm always searching for new dishes as I get bored of old ones fast.

I bought this book as a gift for my girlfriend who loves to cook. We tried the "beefy salad" and the drunken "one night stand" noodles for dinner last night and both were super easy to make and delicious. I don't know if it was the food or the V-Day flowers that got her in the mood, but let's just say that we're both "satisfied" with the results. Can't wait to try more of these recipes!

Perfect gift for girlfriend - and me of course. Good, clear recipes that are designed to do something to your internal chemistry. What more could you ask for? The big question - did the recipes do their intended magic? Well, let's say that we didn't get to dessert so... YUP. Great, clever writing and recipes. Highly recommend.
