

# Microsoft Word 2010 Advanced Quick Reference Guide (Cheat Sheet Of Instructions, Tips & Shortcuts - Laminated Card)

## Word 2010 Advanced

### Using Styles

A style is a predefined group of formatting that can be applied and modified to one or more selected text or text boxes in the document.

- Apply consistent formatting to text.
- Select all text with the same style.
- Change the formatting of all text with the same style.
- Create a table of contents based on the styles used in the document.
- Check for spelling and grammar errors in the document.
- You can use pre-existing styles or create your own.

### Character, Paragraph, Linked Styles

Character style: Use to consistently apply text formatting to text.

Paragraph style: Use to consistently apply text, text, and paragraph formatting to paragraphs.

Linked style: Can be used as either a character or paragraph style.

### Applying Character and Paragraph Styles

- Select the text or paragraph that you want to style.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the style that you want to apply.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, click the **More** button, and click the style that you want to apply.

### Creating a Style

- Select the text or paragraph that you want to style.
- In the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, click the **More** button, and click the **New Style** button.
- Type the name for the new style.
- Click the **Style** type that you want to use.
- Click the **Style** type that you want to use.
- Click the **Style** type that you want to use.

### Displaying the Styles Pane

Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Disabling Linked Styles

Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Changing Styles

- Select or click a paragraph with the desired formatting.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Deleting a Style

- In the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Selecting All Text with the Same Style

- In the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Showing Formatting as Styles to Clean Up a Document

- In the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Restricting Formatting

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Importing Styles From Another Document

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Using Numbered Lists with Styles

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Adding Styles to the Default List

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Applying Table Styles

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Creating a Table of Contents

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Updating a Table of Contents

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Preparing an Index

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### To add a link to an existing style

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### To modify an existing word list

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Generating an Index

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

### Updating an Index

- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.
- Click the **Font** or **Paragraph** tab in the ribbon, click the **Style** group, and click the **More** button.

Product Dimensions: 11 x 8.5 x 0.1 inches

Shipping Weight: 0.3 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (62 customer reviews)

Best Sellers Rank: #91,308 in Books (See Top 100 in Books) #21 in [Books > Computers & Technology > Software > Microsoft > Microsoft Word](#) #22 in [Books > Computers & Technology > Software > Word Processing](#) #67 in [Books > Computers & Technology > Software > Microsoft > Microsoft Office](#)

## Customer Reviews

I've been using Microsoft Word for many years, but thought there might be a few tips I could pick up from this reference guide. However, that is not the case. I'll be passing it on to a friend who is more advanced than I. It's not really fair to downgrade the product because I can't use it, but I'd also like to save someone from making the same mistake. This reference guide covers Using Styles, Restricting Formatting, Creating a Table of Contents, Creating an Index, Inserting Excel Spread Sheets, Outlining, etc. I like the concept, and I'm sure my friend will be happy with it.

I went right from Word 2003 to 2010 in my new job. I figured it wasn't THAT different but this handy little advanced features sheet helped a lot so I could start producing good documents right away without flailing around trying to figure things out; or buying a book I don't need.

I'm a computer consult. I purchased a set of these to see if it would help in training my clients. They love them. Will be purchasing more of them.

Easy to read sheets in nice heavy lamination. I used a three hole punch and inserted them into a three ring binder to make a handy reference guide that won't tear, wrinkle or be ruined if I spill coffee on it!!

Carry this and other reference cards with me to work in my briefcase. They are very helpful to those who are familiar with the program but occasionally need a command reminder. I have these reference guides for all programs I deal with.

Computers are always changing. Microsoft Word 2010 may have changes you might not know about because you are used to Microsoft 2007. This is great to have as a quick reference. If for example your toolbars are different and you need to update any information, it's great to have a quick reference guide!

I got several different ones of these for different programs. Some are quite basic and some are more advanced. I have not used them a lot so far, but intend to. I would say they are worth the price just to save you the frustration and time of looking up how to do something on the program.....SHALOM.....Brother Randahl

Awesome value. Very durable and handy to have. The organization is great and the text formatting is clear and easy to read. It will take some time to get used to where the tips are but I figure at the same time as memorizing where the tips are one would begin to place the tips into long term memory for use.
