Visualizing Technology Complete (5th Edition) (Geoghan Visualizing Technology Series)
This book covers all of the traditional topics taught in a Computer Concepts, Digital Literacy, or Computer Literacy course. Visualizing Technology is unlike any textbook you’ve seen before. Instead of pages full of long paragraphs, you’ll find a highly visual, magazine-style layout with images creatively representing concepts, making them easy to remember. Chapters are organized as articles with catchy headlines; all the details are included, but in bite-size chunks of text that are written for the way students think. You’ll also find coverage of ethics, green computing, and careers in every chapter. The content is modular, so you can use this book however you teach your course. In the Fifth Edition is an all-new design that presents the content in a more linear, engaging way just like students would see on their favorite websites. Every chapter now also has both a Digital Literacy project and an Essential Job Skills project to help students gain the practical skills they need for today’s work environment. Note: You are purchasing a standalone product; MyLabâ„¢ & Masteringâ„¢ does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab & Mastering, search for: 0134538625 / 9780134538624 VISUAL TECHNOLOGY COMPLETE&MIL W/ETX PKG Package consists of: 0134401077 / 9780134401072 Visualizing Technology Complete 0134497899 / 9780134497891 MyITLab with Pearson eText -- Access Card -- for Visualizing Technology
