# Stained Glass Mosaics: Projects & Patterns

## Synopsis

From bits of brightly colored glass, put together magical mosaics. All the information is here—selecting and cutting glass, copying and transferring patterns, and setting up a safe work area. Practice your technique on full-size patterns; helpful hints alert you to common errors, and photos capture every step. Then try 25 fabulous projects: planter boxes, wall hangings, a lily-pond birdbath, mosaic tabletops, and garden stones.

## Book Information

Paperback: 96 pages

Publisher: Sterling; 1st Pbk. Ed edition (December 31, 1999)

Language: English

ISBN-10: 1895569540

ISBN-13: 978-1895569544

Product Dimensions: 10.1 x 8.6 x 0.2 inches

Shipping Weight: 12.6 ounces

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (9 customer reviews)

Best Sellers Rank: #1,227,070 in Books (See Top 100 in Books) #76 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Mosaics](#) #113 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Glass & Glassware > Stained Glass](#) #11511 in [Books > Children's Books > Activities, Crafts & Games > Activity Books](#)

## Customer Reviews

Shannon & Torlen have once again written an excellent book on stained glass instruction. They have produced an exceptional, easy to follow instruction manual with high quality photographs on Mosaics. Being a stained glass instructor, I recommend this book to all hobbyists and stained glass artists, as I do to my students. I look forward to the release of the authors third book on sandblasting, leaded glass and copper foil construction!!

Years ago I bought this book and have enjoyed it ever since. All the tools, techniques and materials are listed and explained thoroughly and there are many photos to serve as an aid when purchasing items. The photos and step-by-step instructions are also very clear and helpful when demonstrating the different techniques and steps involved in making the projects. The thing I liked about this book was that they don't assume you have prior knowledge of this craft so although they don't "dumb things down", everything is clear and easy to understand. They not only tell about how to make the

mosaics but related items too (like if it's a wall hanging they'll include instructions for making its base, mounting, framing, staining and hanging it, which is nice for those of us who are not experienced woodworkers). There is a good variety of types of projects: tables, mirrors, planters, wall plaques, stepping stones, etc. and each has a pattern drawn on a grid so it's easy to copy. I did the "Lotus & Dragonfly" hanging pictured in this book and have received many compliments on it from friends. This book is a great intro to mosaics with stained glass.

I have been a stained glass artist for several years. Living in a small apartment, I find myself in a position to change direction and look at smaller projects while still working with glass. This book is great and has encouraged me with several projects! Thanks.

I thought the book was more like for beginners. Other than that it was here on time. I will try or twist some of the projects. I try to get different views and read as much as I can on mosaics.

would have liked to have had more commentary, it is thinner than I expected. But I would purchase again, depending on cost.
