Handcraft Wire Jewelry: Chains&Clasps&Pendants
Synopsis
The latest book from Kimberly Sciaraffa Berlin teaches jewelry makers how to make 22 wirework pieces from start to finish. Jewelry makers are treated to Kimberly’s™s freeform style of wirework as she wraps and weaves around beads and cabochons to make showcase pendants. She then explains how to make many styles of chains and clasps, so every part of the piece can be handmade. After mastering the component techniques, jewelry makers will find the resulting components are completely interchangeable for thousands of looks!

Customer Reviews
Handcraft Wire Jewelry is a bangup book for any jewelry designer! If you were not previously a total lover of the technique of wire wrapping in your jewelry making, after reading this excellent book by Kimberly Sciaraffa Berlin, you most definitely will be! The beauty and the quality of the author’s designs are matched by her marvelous ability to show the reader how to create these designs. Via wonderful photos and clear explanations, you can tackle these designs, step by step, even if you are a beginner. And you will love this journey into fascinating and beautiful designs! Kimberly Sciaraffa Berlin is a great teacher. More than that, she makes incredibly gorgeous jewelry. Some of the inspirations and influences for her, which she mentions in this book, Handcraft Wire Jewelry, come from ancient art, nature, and Alexander Calder. According to what I read in the book, she feels that Calder’s jewelry creations "have inspired her to think and design without limit". The reader will immediately grasp how the freedom of the author’s philosophy imbues wonderful movement and life into her jewelry designs. They are exceptional. There is a sense of joy which infuses every page of this book. The thirty two designs offered afford the reader easy to understand starting points.
complete with beautiful finishing touches. These designs can also be broken down into components. These then can be interchanged to suit the reader’s own taste. If you like one aspect of one of the designs, and you like another clasp taught elsewhere in the book, for example, it is easy to alter the projects to make each of them your very own.
