How To Make Money Selling Clothing On Ebay

Synopsis

In "How To Make Money Selling Clothing On Ebay", Ebay PowerSeller and Top-Rated Seller Ann Eckhart (of the popular blog www.SeeAnnSave.com) shares with you her personal tips and tricks for making money selling secondhand clothes on Ebay. Garage sales and thrift stores are full of clothing that you can buy cheap and resell for a nice profit on Ebay; however, it's important to know what brands and sizes look for and how to list clothing in order to make the most money. Whether you are looking for a category to start an Ebay business with, or if you are already an established Ebay seller looking for new inventory, this easy-to-read book goes over everything you need to start buying and reselling clothing today!

Customer Reviews

I'd estimate that about half of this book has good information in it. The other half though will cost you tons of money if you follow it. An experienced seller might learn a thing or two from the book but somebody just getting started will learn many bad habits if they follow Eckhart's suggestions.

So I read three books from the author today on eBay. One book was five stars (the shipping book), one was three stars (on how to get started selling on ebay), and this book. The three star book had very basic information and a lot of one paragraph pages with LOTS of white space. I actually asked for a refund as the formatting and presentation (inflated number of pages) was unfair and not appropriate. The shipping book was great - had mostly full pages of excellent content. Thankfully, I am satisfied and I'll keep that book. This book has really great information. And it's the information that makes it a great book. What pisses me off is that the book again, like the get started book, is FULL of pages with lots of WHITE space making the book appear to have more content than what it actually has. If the book had some pictures of the brands the author was talking about - it would be a five star book. But with an excessive amount of one paragraph pages - I am only awarding this five star book four stars. I hope the author will fix the formatting or add some pictures and I'll be glad to revise this review. It's a shame because the information really did rock! 4 stars.

This book has some really good information in it, but it only covers one aspect of the whole process. It gives you tips on what to look for, how to post, etc., but it left out the most important info: SHIPPING. How can you have an internet based business if you don't know the ins and out of getting the product to your customer? Of course, she does say towards the end of this book that you can purchase her next book on shipping. I really think that shipping should have been in this book, or at least let customers who buy this book know that it is only Chapter 1 and if they want to know more then they have to buy more books.

I've read about 3-4 different books now that were "recommended" to me, but were awful and set at either a SUPER beginner's level or didn't have enough valuable information to make it worth the \$2.99 I spent on the book. This book, however, I would actually recommend. The most valuable thing I found was when she broke down SEVERAL clothing brands and high lighted what DOES and DOES NOT sell on eBay and WHY! This information is still valid, and just expanded further as time has changed. This author could EASILY update this book with additional information and it'd be even more relevant to the reader. Don't worry if you're new, she still going into the basics, but the book does have advanced seller info for those of us that are tired of A-B-C, 1-2-3 books.

I received this because I just wanted to see what they are saying. This would probably be more valuable to people who have no experience at all. Otherwise, it is rehashing what you already know. I am giving it 4 stars because it is well written.

I have sold a few items on ebay and was looking for sources in the winter months for items i could resell. This is a good guide for those who are familiar with selling on Ebay with what to look for and where to find it.

Great book, easy to follow, well structured, great information. Selling clothes on ebay can be tricky so this book is a great help for everyone that wants to start making a bit of extra money this way.

It is stated all over the book that "As I have said throughout this book, I am not a full-time Ebay clothing seller." I have no idea why the author wrote a book about selling clothing on ebay when she has no expertise of it. The clothing brands that are mentioned are not even the top seller brands on ebay. Many typo errors too! Its not really 115 pages because most pages have 1-2 sentences/page. Not worth spending \$2.99
