Customer Reviews

While I really enjoyed doing this and love the idea, my husband has some issues with it, so we are

compromising on the number of stars to give the book. We tend to make the same thing over and over and can't ever think of new things with the items we have and so having a menu with a different meal for 30 days seemed really appealing. Plus, we figured that we would save a lot of money by not eating out if we had homemade things ready to go. We started with the One-Month Entree Plan E. There were many errors but nothing that kept us from creating what seem like a whole host of good dishes. As someone else noted, there was a lot of confusion over cooked chicken and raw chicken and we ended up with wrong amounts of both, but it wasn't a big deal and we were able to work around things like this easily. What we didn't like was that for the salmon dinner we were told to buy salmon, so we buy this nice fresh salmon to prepare. But then, when we got to the recipe we found that the 'recipe' was just to freeze the salmon and then cook it with lemon, dill and paprika on the day you are going to eat it. If we had realized that we were going to just freeze the salmon without any prep, then we would have just bought some frozen salmon, not a good quality fresh one. This was sort of a surprise with a lot of the recipes, that there wasn't any preparing the meat/chicken on the cooking day, just freezing it and then cooking it on the day we are to eat it. While there isn't anything inherently wrong with this, it just wasn't quite what we expected. With the salmon, we ended up not freezing it and ate it as the first meal. Also the fact that these recipes were right up our alley is a bad sign!
