Customer Reviews

This book is mainly black and white text of exactly what the title implies- small print listings of many toys with their description and prices. In the middle is a nice glossy section with picture of some popular toys of the past. I purchased this as a gift for someone who loves to thrift shop and he loved it. He enjoyed just looking through it and remembering toys from the past. The book came quickly and in great condition.

This book does what it should. It has a well organized layout with easy to understand pricing.

Wish the book had more pictures.
