The Safest Place On Earth

There are many paths through life, but only one leads to...

THE SAFEST PLACE ON EARTH

WHERE PEOPLE CONNECT AND ARE FOREVER CHANGED.

LARRY CRABB

AUTHOR OF CONNECTING

FOREWORD BY EUGENE PETERSON
In today’s frenetic society, people rarely develop intimate friendships. Instead, they spend their lives essentially disconnected from others, rushing through life content with brief visits and casual conversations. But what if one were to develop a community, a spiritual community, of people who walked with and supported each other through life’s journey? A community of real friends who listened to each other’s personal tragedies without merely trying to fix the problems, who encouraged and nurtured each other’s strengths, and who accepted people for who they really are, instead of the image they try to portray. In The Safest Place on Earth, Larry Crabb explores such a place, where God can heal disconnected people and allow them to reconnect with each other and, ultimately, with Him.

**Customer Reviews**

I am in the habit of adding notes and references in the front of the books I read so I can return to specific passages when writing or researching issues. I can measure their impact on my thinking by the number of them, and the flyleaf of my copy of this book has little room left. A Psychologist by training, but more, a devoted follower of the Lamb who understands the disciple’s journey into the shadow of the valley well, Dr. Crabb shares insights about the nature of the church that bring us back to consider what spiritual community means in real life terms. Larry’s writing has the humility and the scars that come from being genuinely engaged in walking with God. This is a timely book, combining an understanding of the intended intimacy of the church with the freshly awakening
desire across Christendom for spiritual formation and direction in the church. In my notes I find definitions for things like: love; life and death; brokenness; mysticism; community; the church. He offers observations about what is lacking Psychology and in psychological theory, and he offers workable models for the church to develop the intimacy, love and community our Triune God intended in both our and the church’s design. If you are considering small groups, and wondering whether they should be evangelistic, or bible studies, or project based, Larry offers an alternative: building genuine community, intertwining lives in functional and useful ways that further our development and transformation. If you are working to develop an understanding our dual natures of flesh and His life within, Larry speaks clearly and usefully to these issues. Dr. Crabb’s book is useful for an individual to study, giving us insights into deeper truths in practical and understandable ways.
