In Dreamweaver CS3 Dynamic Development, instructor David Gassner demonstrates how to use Dreamweaver CS3 to create professional, data-driven websites that are interactive and seamlessly integrated. From choosing servers and databases to installing MySQL to designing and building web-based data entry systems and displays, this training provides in-depth, hands-on guidance through the process of building strong dynamic sites. Exercise files accompany the tutorials. Topics include: Understanding dynamic applications, Working with databases, Installing MySQL on Windows and Mac OSX, Setting up an application server, Creating a dynamic application, Displaying data on dynamic pages, Building data entry systems, Authenticating users, Using Dreamweaver CS3 with ASP.NET and PHP, Creating interfaces and validating forms with Spry. Duration: 7 hours. On 2 CD-ROMs.
