Customer Reviews

Looks more like it was written by someone who wandered the completed sales listings on ebay, and thought 'Hey I can scam people out of their cash by posting pictures of the items that sold in an ebook.Skip this.

Waste of time and money . This book is full out waste of time. This guy just wants your money and that's it folks. Do not fall for it !!! These ideas are the same you can get from one video on youtube. Written by someone who seems to have barely been successful on ebay.

I'm always wondering what to buy at yard sales and thrift stores. This book is great help to me. Simple with a title and a photo. Perfect to take along when thrifting. I'm very disappointed with myself for having thrown away so much over the years. Hundreds of dollars went with the trash man! No more though! First I'm digging out that rainbow tool I never use, then I'm heading for our

thrift store. Thanks for making things so simple.

The book doesn't work on mobile well at all. The spacing is horrible and the pictures are on the opposite page as the words which makes it confusing to read. If the book wasn't free, I wouldn't have downloaded it.

I have just recently gotten into reselling and there were some items in this book I never even thought about. I can see myself studying this book more to familiarize myself with products others would easily overlook. Thank you for sharing your ideas and insight!

Hard to complain about something somebody published for free but the formatting is really bad you have to go back a page to find what picture the text is referring to. 30% of items are vacuum parts. Still great info!

Wow! Thanks for bringing us all this info. I used to pass by all this stuff while out at thrift stores. You are the man! Now I can't wait to go out to the stores again.
