Synopsis

Selling on eBay isn't a game. You need to have a plan. This audiobook walks you through what it takes to sell on eBay. It answers all of your questions and gives you ideas on how to get started and grow your eBay business. Includes a short section discussing the new seller standards that eBay began enforcing on August 20, 2014. Grab your copy now, and learn how it will affect you. Have you ever wondered how some sellers can grow strong, thriving businesses while others barely scrape by? Many times I've watched two sellers as they are first starting out on eBay. Both sellers offer the same products and prices, yet one business skyrockets to the top of the charts, selling thousands of items per month, while the other struggles to sell 10 or 15 items per month. They might even have the same basic looks to their listings. On the face of it, it doesn't make sense. Why does one eBay seller prosper while another falls behind? Is it a matter of luck? Does one eBay seller catch all of the breaks while another is stuck holding doo doo? Believe it or not, many struggling sellers believe this. They think it's all a matter of luck. But you and I know better. Don't we? Sellers who succeed on eBay play by different rules. They don't leave anything to chance. They know that success requires a plan. You don't just move from point A to point B. You need to make it happen. And that's what this book is all about. It gives you a strategy for selling on eBay. You will learn: How to write titles that draw buyers into your listings and help them find what you are selling How to take pictures that show buyers what they need to know to say, "This is the item I'm looking for!" The anatomy of a great listing. What you should say. How you should say it. What not to say.
