Bittersweet: Thoughts On Change, Grace, And Learning The Hard Way
The idea of bittersweet is changing the way I live, unraveling and re-weaving the way I understand life. Bittersweet is the idea that in all things there is both something broken and something beautiful, that there is a moment of lightness on even the darkest of nights, a shadow of hope in every heartbreak, and that rejoicing is no less rich even when it contains a splinter of sadness. It's the practice of believing that we really do need both the bitter and the sweet, and that a life of nothing but sweetness rots both your teeth and your soul. Bitter is what makes us strong, what forces us to push through, what helps us earn the lines on our faces and the calluses on our hands. Sweet is nice enough, but bittersweet is beautiful, nuanced, full of depth and complexity. Bittersweet is courageous, gutsy, audacious, earthy. "This is what I've come to believe about change: it's good, in the way that childbirth is good, and heartbreak is good, and failure is good. By that I mean that it's incredibly painful, exponentially more so if you fight it, and also that it has the potential to open you up, to open life up, to deliver you right into the palm of God's hand, which is where you wanted to be all long, except that you were too busy pushing and pulling your life into exactly what you thought it should be. I've learned the hard way that change is one of God's greatest gifts, and most useful tools. Change can push us, pull us, rebuke and remake us. It can show us who we've become, in the worst ways, and also in the best ways. I've learned that it's not something to run away from, as though we could, and that in many cases, change is a function of God's graciousness, not life's cruelty. Niequist, a keen observer of life with a lyrical voice, writes with the characteristic warmth and honesty of a dear friend: always engaging, sometimes challenging, but always with a kind heart. You will find Bittersweet savory reading, indeed. "This is the work I'm doing now, and the work I invite you into: when life is sweet, say thank you, and celebrate. And when life is bitter, say thank you, and grow. "

Recently, I received an advanced review copy of Shauna Niequist’s soon-to-be released memoir/blog style book from Zondervan - Bittersweet. I loved both the topic (thoughts on change, grace, and learning the hard way) and the cover photo with its crumbly chocolate cookie. Shauna’s writing makes you feel like you have joined an inner circle of really cool 20-something girlfriends, the type of friends who are at different stages of single, married, and mom-life, yet still squeeze in time for blogging, freestyle impromptu Italian dinners, and long talks over chai tea. Her book is equal part reflection, honesty, advice, and food. She made me hungry, not just for the bounty of farmer’s markets, but also for those types of friends who can linger over coffee and bare their souls with one another. Perhaps my favorite chapter was her writing on friendship. As I finished it, I sighed, wiped away a stray tear, and made another resolution to call all of the dear women who have drifted out of my daily life (you know who you are). She writes: “Share your life with the people you love, even if it means saving up for a ticket and going without a few things for a while to make it work. There are enough long lonely days of the same old thing, and if you let enough years pass and if you let the routine steamroll your life, you’ll wake up one day, isolated and weary, and wonder what happened to all those old friends. You’ll wonder why all you share is Christmas cards, and why life feels lonely and bone-dry. We were made to live connected and close . . . So walk across the street, or drive across town, or fly across the country, but don’t let really intimate loving friendships become the last item on your long to-do list. Good friendships are like breakfast.
