Our children - ages girl age 7 and a boy age 5 - LOVE the Sardine in Outer Space series. Sardine 1 starts as a more or less straightforward romp but as the series has progressed the characters have become more self aware and complex. I strongly recommend this book.

The sardine books are the first books my kid got into reading and kicked off a love of reading. They are great, we own all of them.

My son loves the Sardine graphic books. We donated them to his classroom (3rd grade) and they are very popular.
