Customer Reviews

The book is a good reference guide for the restorer and buyer, but only as a starting point for a novice. I hope it would have been a bit more detailed cause most of the stuff I knew already. Also some restorers I know claim things different from what the book says so now I don't know what to believe.

Nice book. this seems to be a very basic information and picture book. I had alot of stick on notes with questions in this book with no answers from it. So calling it originality guide is a wrong title for this book. Good for viewing pleasure for those who loved E bodies.

Not near as much detail as I was hoping for. Doing resto on 70 Cuda and looking for details of what the various sales and fender tag codes consisted of.

Great book, would highly recommend it to any Challenger & Barracuda purchaser.

QUE DU BONHEUR....JE NE REGRETTE PAS CET ACHAT

Was thoroughly enjoyed and in good shape ^

Nice book, well cared for got here on time. Rating the author is senseless because the book (especially car books) never have enough pictures and detailed descriptions of the unique features of the selected car... just my 2 cents
