Customer Reviews

A waste of money if you are looking for soups to make in the Vitamix. This is simply a book of 31 recipes that are prepared by cooking ingredients in other pans/pots/baking and then using the Vitamix as a pureeing device (for hot soups) or just as a pureeing device for cold soups. Just my opinion..

Excited to find a delicious soup to make in my new Vitamix, I eagerly scanned the table of contents. Ah! Tomato & Swiss Soup, page 54! I flipped to that page and found a recipe not only incorrectly titled (it should be Tomato & Swiss Chard Soup- also tasty sounding but certainly different than Tonato & Swiss) there were NO TOMATOES listed in the recipe. A proofreader would have gone a long way here. Now I have little interest in the other recipes and will likely pitch this waste of money in the Good Will bin.

Seem like good recipes but needs to be proofread. Many missing ingredients in recipe lists, etc.

I was expecting a lot more recipes and wasn't really impressed with the selection

Pictures of soups are different from recipes. Maybe when it became an eBook the layout was mixed up. Recipes seem good, but would appreciate pictures that are true representations of the products.

Haven't tried many recipes but the ones I have tried is good

I needed some inspiration and I got some.

I also love that this cookbook has the nutritional information. It seems like they are leaving that out of a lot of them.
