Customer Reviews

OK - I say I love it - NO, not really - It was a required text for my class, however, it was EXACTLY what I needed, and the price couldn't be beat! It was delivered within two days, the price was half what I could purchase it at the bookstore or any other online "student" website, and of course with 's guarantee, there's no way I could go wrong! Thank you , for continuing to be my "Go-To" location for all of my text-books, and no matter how much time I waste looking, you will continue to have the

best prices! Even the bookstore has felt your impact - they have started offering a 10% discount to price match 's prices - the negative at the bookstore? You wind up waiting in line for 1-2 hours. I don't know about anyone else, but having ship it to my DOOR, have no inconvenience of going to the campus to stand in line with TONS of other irritated students, for the SAME price I can get at ??? It's a NO-Brainer! Gee, Why am I going to college - to learn what is making very obvious!

Never mind the spelling errors, because we all know you can still easily follow along with a few spelling errors; the instructions are so confusing sometimes! I've been working through the "about us" page in Dreamweaver, then at the end of the instructions, it tells you to close the spa page (a completely different page that isn't related to this one, or even open), then continues to instruct you through the about us page (so it's obviously not supposed to be closed, either). What? How, pray do tell, does one close a page that isn't open, and hasn't even been referenced in this chapter? The book is ok, if not very dated (some of the instructions tell you to use features which aren't even available in dreamweaver anymore)

This book is nice because it has 3 programs all rolled into one book. It does have silly skill reviews at the end of each chapter, but they actually do have the files online that you can download and use with the reviews. Overall the books get the point across, spelling mistakes or not. Granted for my classes we didn't use every skill review, but I didn't run across any instructions that seemed out of place.
