The Book Of Beanie Babies: An Unofficial Book

Synopsis

The Book The Book of Ty Beanie Babies is simply the best way to organize your Beanie Baby collection. This first release has a full color 8.5 x 5.5 inch page for each 1997 retired Beanie Baby and the 1998 Beansies up to the new introductions of May 30. Watch for our updater set of the fourteen new Beansies! The back of each page has the Beanie's poem and important dates as well as spaces to record important information about your own Beanie. Our system uses a three-ring binder with dividers so you can sort the Beansies any way you like; by what you have, what you want, retirees, current, type of animal, etc. Never Buy Another Book! Our first update release of all Beansies retired in 1996 and earlier is now available. About twice a year, as new Beansies are released, we will be offering update sets for a small charge. You can place the new pages into The Book to fit your own way of sorting. The Book will never be outdated!

Book Information

Ring-bound: 124 pages

Publisher: AKIA; Lslf edition (March 1998)

Language: English

ISBN-10: 0966307704

ISBN-13: 978-0966307702

Product Dimensions: 9.2 x 8.2 x 2.4 inches

Shipping Weight: 2.2 pounds

Average Customer Review: 4.2 out of 5 stars [See all reviews](#) (23 customer reviews)

Customer Reviews

This book is the best way to keep track of your collection. With extremely handy spaces to track values of Beansies seen, date purchased, amount spent, and Beanie information (including adorable pictures!), "The Book" is not to be missed. I have personally chosen this as my sole method of tracking all 132 Beansies in my collection! The loose-leaf binder system is great for arranging the Beanie cards any way you like. It's a great tool for kids, as well as adults.

Kids and ring-binder books seem to be a perfect match. My 13-year-old daughter has this book and

it is her absolute favorite out of all the "beanie" books. She loves updating the pages with information as she adds new beanies to her collection. As far as finding the supplements, I found all of them right here at .com and gave her the complete collection for Christmas. She was thrilled! Thanks to the authors for their fabulous idea of a book that is never out-dated.

I recently read this book, and may I say that it was a big help when I purchased my Beanies. A must have for serious collectors, this book tells you everything that you need to know about serious Beanie collecting. If you are a serious Beanie collector, and you want to know exactly what kind of Beanies you have and their value, this is the book for you. I recommend it.

I bought "The Book" so I could keep track of what I have, the cost of each item, along with all the other info. Need supplements for new beanies! Was going to buy Teenie Beanies supplement, but why bother if I cannot get the others also.

I have looked at many beanie baby books, but they all are outdated every few months and I have to buy another one and transfer all the information from one book to another. That is just a hassle I don't have time for. With "The Book," I can update easily and I can organize the cards any way I want. It's great!

My daughter bought this book to keep track of her Beanie purchases. No supplements have come out with the latest releases. I have e-mailed the company. Their reply is that they are being sued by Ty for publishing the book. Therefore, there would be no more supplements. A good thing has gone bad.

Have all of the pages through 1998. Need the New Pages for all of the new Beanies. Was a great Book for keeping perfect track of the Collection, but very frustrating now not being able to follow through.

I blew every last penny of my life-savings on this godforsaken fad. To add insult upon injury, I bought this book hoping it would rescue me from my lonely world of debt and failed marriages. Boy, was I wrong. Had I known that the Beanie Babies were destined to travel the same road as the Pet Rock and Crystal Pepsi, perhaps I would have reconsidered these careless financial decisions. And I couldn't agree more with my fellow reviewer's ("A reader from danville ill") opinion of this book.
